This expenditure authority adjustment loads \$6,000,000 of federal fund expenditure authority into the Department of Environment and Natural Resources. This continuous appropriation is established in SDCL: 46A-1-95 for pass through funding purposes authorized by the Federal Clean Water Act and will be used to support the clean lakes program, the non-point source program, pollution prevention, and the wetlands grant program.

Accounting transaction detail can be queried from the central accounting system by LRC staff. A record of this transfer and its authorization is available for public inspection in the Bureau of Finance and Management.
